

ISAAC AND THE APPLE NEWS YEAR 3

Thursday 17th November

WHAT A FANTASTIC TERM WE HAVE HAD IN YEAR 3!

In Science, we were learning all about plants. We planted seeds, looked at the parts of a plant, explored water transportation in plants and learnt all about seed dispersal. The children loved conducting experiments and are developing their awareness of how to conduct a 'fair test'. We were learning about Volcanoes in Humanities. Throughout this topic, we have used play dough to create models of the layers of the Earth, explored how Earth is made of tectonic plates, completed map work based on the location of volcanoes and have understood how volcanoes are formed.

We were able to work in groups to research Volcano Cumbre Vieja and used this to help us write our own newspaper report. We also learnt about writing a diary entry by learning 'The Diary of a Crayon'. The children had a lot of fun learning this model text and have been able to innovate it in a range of creative ways. Year 3, you have worked so hard during Term 1! We can't wait to see what you achieve next term!

ISAAC AND THE APPLE NEWS

NOTES FROM THE LEADERSHIP TEAM

Thursday 17th November

WHAT A FANTASTIC FIRST TERM OF THE SCHOOL YEAR!

If the first half of Term 1 was jam packed full of fun learning opportunities, then the second half of the term can only be described as being bursting with excitement and outstanding learning.

Hopefully you have noticed the newsletter name change. This was the result of a competition between the classes. Each class came up with multiple suggestions for a newsletter name before democratically voting for their favourite. Each classes' suggestion was then added to a voting form and pupils got to vote for their favourite name from all the fantastic entries. In the end they chose Isaac and the Apple News which was suggested by Year 5 Turquoise. Congratulations to Year 5 Turquoise and well done to all the other classes for their imaginative newsletter names.

This half term our playground has taken on a new look at break times. There is now a variety of different break time activity zones set up for KS1 and KS2. Year 1 and 2 pupils have enjoyed solving our giant puzzle as well as trying to correctly identify different countries, continents and ocean on our world map. Year 3, 4, 5 and 6 pupils have gathered together in our Pokémon card trading zone to try and 'catch them all'. The basketball hoops have also proved popular for KS2 pupils and we look forward to seeing improved skills being used in PE lessons and Mr McGrath and Mr Kennedy's after school club next term.

This half term we have celebrated the values of citizenship, personal accountability, honesty and individual liberty. We held our second house competition which saw pupils complete a FIFA World Cup themed STEM challenge as part of our World Cup celebration week.

Thank you for all your support and cooperation this term. We wish you safe travels if you are flying out of Doha for the break or if you are staying, we hope you enjoy the World Cup festivities.

Important Dates:

Monday 2nd January - First day of Term 2

Sunday 8th January - Book Week

Monday 9th January - After-school clubs begin

Sunday 15th January - Arabic Week

Sunday 22nd January - International Week
